

## **Manage Portfolio & Collaborate in this Release of Project Plan 365**

*[Complete Portfolio PLUS Project Management Software]*

Today, CEO of Housatonic Software Sorin Fiscu announced that the Project Plan 365 subscription platform added a Business Plan that is priced for small-to-medium businesses - with or without a Project Management Office (PMO) in-house.

This new subscription plan allows teams of five or more to work together **in real time** on project portfolios, and this update includes these new features:

- Integrated **Cost, Resource & Task** Management tools that work across all projects, platforms and devices.
- An **Account, Resource Pool & Portfolio** Management web portal for easy administration.
- A centralized, **Private & Secure Cloud** storage space for the entire team.

### **Customer impact**

All subscribers of the Project Plan 365 Individual Plan (and users of the paid or free Viewer) can easily upgrade to the new plan via their existing account. Existing users, new users and any project team working with .mpp files (Microsoft Project files) should go [here](#) to get started.

*“The latest Project Plan 365 is really slick,” says Albert Horowitz (of Horowitz Architects LLC). “Now I have a closer connection to my team out in the field, and it just took a few clicks and a few more dollars – thanks!”*

## **Availability**

The Project Plan 365 **Business Plan** is available immediately by signing in or signing up on the [website](#). See these video explainers and quick start videos for [more information](#) on new features and functions; also of interest are new web pages that describe [different industrial solutions](#) using the Business Plan.

## **About Housatonic**

The Housatonic team of PMI/PMP-certified Project Managers and experienced IT professionals has been around since 2001. Prior to developing Project Plan 365, we did hands-on project planning and scheduling in multiple industries, including Manufacturing, Banking Mergers and Acquisitions, Insurance, Construction, Education and Information Technology. Today, Project Plan 365 is in the hands of hundreds of thousands of project managers worldwide. In short, Project Plan 365 is built by project managers, for project managers.
